The Hospital and Morgue (HAM) Program is a visitation program intended to provide a meaningful and educational experience. It is an alternative to harsh penalties and fines. You will be required to complete the following components:

- (1) **Hospital Visit:** You will spend 4-6 hours at a participating Trauma Center, Base Station, or Hospital that provides Emergency Services. You will be under the supervision of a license trauma professional (MD, Trauma Nurse, or EMT/Paramedic). (\$60 Program fee)
- (2) **Coroner (Morgue) Visit:** You will spend 4 hours at the Department of Coroner for a lecture, tour, and slide presentation. You will be under the supervision of the Coroner or Dept. Coroner. (\$80 Program fee)
- (3) **Written Assignment:** You are required to write a 500-word essay discussing your experiences with the program and the impact it has made on you.

At the end of each visit you will receive a Certificate of Completion. Submit the Certificates and Written Assignment to the referral center that enrolled you into the program. The referral center will verify successful completion and provide the documentation you are required to bring to Court.
